

Do’s and don’ts before fillers

What should we do, and not do, before having fillers?

Could previous filler treatments or our medical history prevent us from having new filler treatments? What side effects can we expect from fillers? And what should we do, and not do, before having fillers?

In this short video, Dr. Tom van Eijk, an aesthetic physician based in Amsterdam, answers all those essential questions about fillers. You will also learn what doctors can do to ease potential pain from filler treatments.
